APRILE

PROJECTS DIVISION

# COMPANY OVERVIEW

Aprile is an **international logistics provider with over 50 years of experience**, supporting customer supply chains across diverse industries with reliable and coordinated transport services.

Our **Project Cargo Division** builds on this foundation to manage complex and large-scale industrial movements, supported by **dedicated teams** and **a network of more than 30 offices worldwide**.

# PROJECTS DIVISION

Our Project Cargo Division focuses on the **planning and movement of oversized, heavy,** and **technically challenging cargo**. With more than 30 years of specialized experience, we provide end-to-end project logistics supported by multimodal capabilities and coordinated global resources.

Our role is to **simplify complex operations**, ensure **safe handling,** and **keep projects on schedule** through clear communication, strong oversight, and proven technical expertise.

# OUR EXPERTISE

We manage out-of-gauge cargo, heavy-lift units, industrial equipment, materials, and full production facilities. **Every solution is tailored to the project's technical requirements, timelines, and site conditions**.

With multimodal capabilities across sea, road, air, and rail, **we design the safest and most efficient routing** for each movement. Our teams coordinate every stage from origin to job site, including **vendor management, documentation, and compliance** with local and international regulations.

## KEY CAPABILITIES

Out-of-gauge and heavy-lift transport

Full-plant and multi-origin shipments

Multimodal routing and engineering studies

Handling at ports, terminals, and job sites

Vendor and site coordination

Global project supervision

# INDUSTRIES

Aprile supports large industrial projects that depend on precise logistics and reliable execution. Our work spans sectors where tailored transport planning and technical understanding are essential to project success, including:

**Oil and gas**

**Petrochemical and chemical**

**Steel and manufacturing**

**Construction and infrastructure**

Knowledge of these industries enables us to understand project constraints, adapt to sector specific requirements, and align logistics with each customer’s operational priorities.

# OUR APPROACH

A **dedicated Project Manager** oversees the entire operation as your main point of contact, ensuring **clear communication** and **coordinated execution** across all regions involved.

We manage planning, vendor engagement, documentation, and regulatory requirements to maintain momentum throughout the project. **Early involvement with suppliers supports accurate scheduling and reduces the risk of disruption**.

When required, we assign **project specialists** to supervise heavy lifts, critical operations, or site activities, providing an **added layer of control** during key phases.

# OUR TEAM

Our Project Cargo teams bring **international experience** and **specialized knowledge** gained from managing major industrial projects around the world. Their expertise spans **engineering, transport planning, vendor engagement,** and **operational oversight**.

Dedicated project personnel remain closely involved throughout the project, providing clear guidance, informed decisions, and steady support from planning to final delivery.

# QUALITY & COMPLIANCE

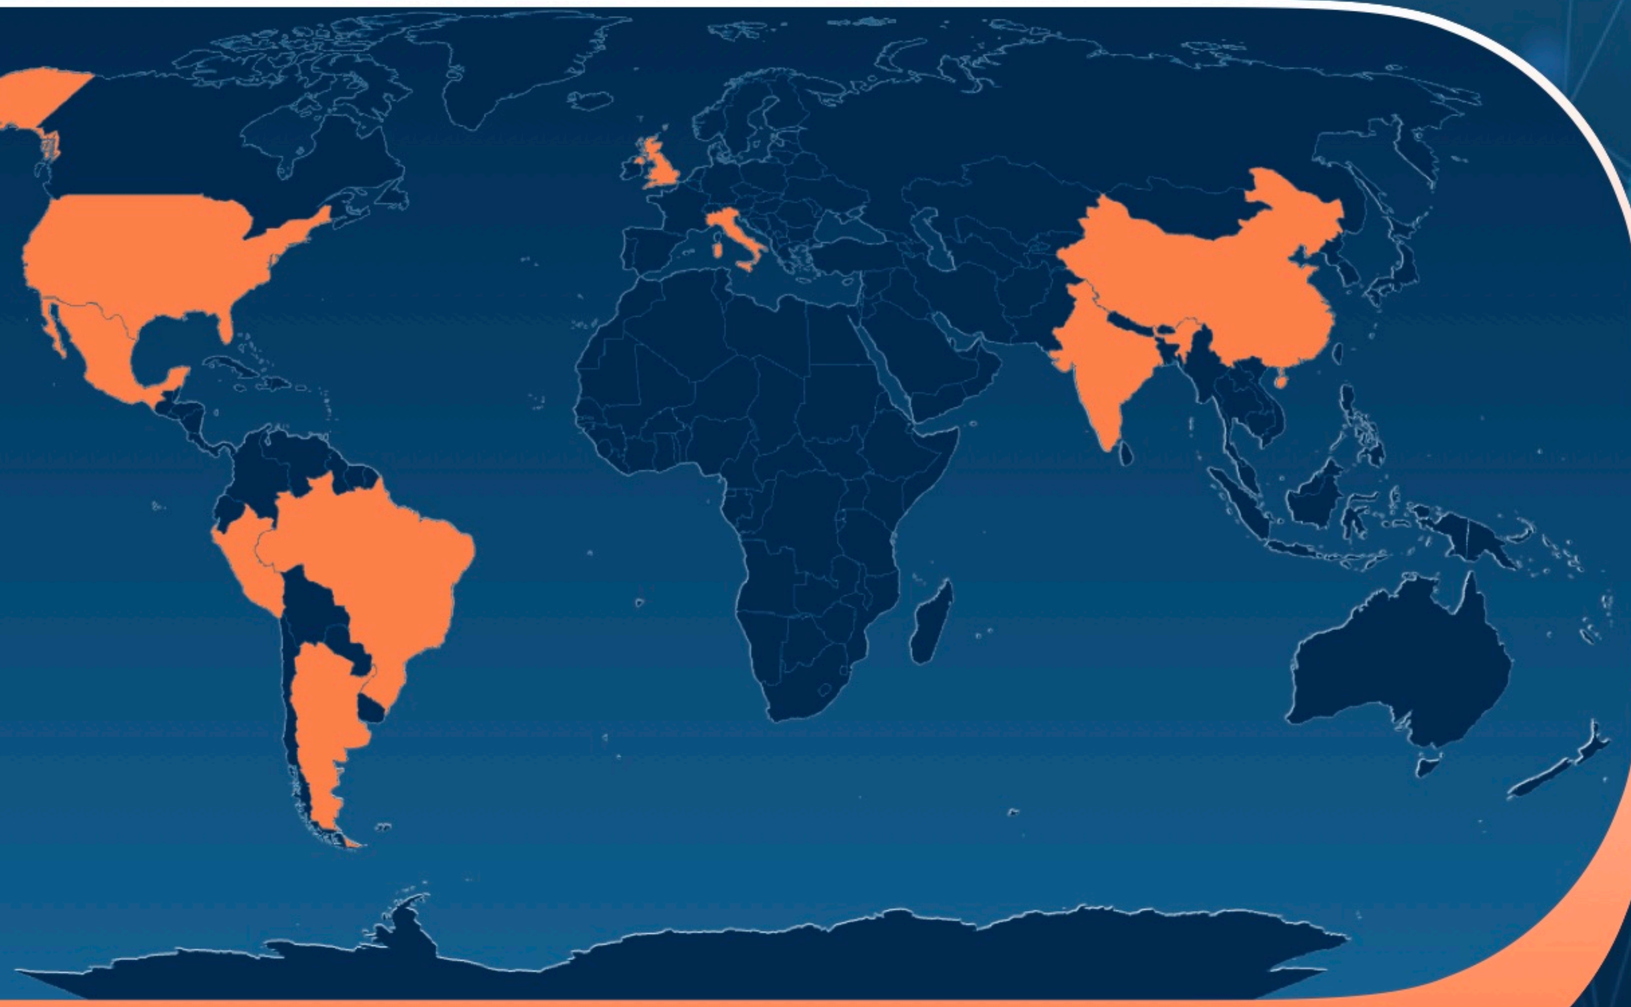

Project Cargo operations follow Aprile's integrated Quality, Environment, and Occupational Health and Safety management system. Aprile is certified under **ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018**.

These certifications support consistent service standards, safe working practices, and full compliance across all project phases, giving customers confidence in our processes and execution.

# YOUR GLOBAL NETWORK

Our network provides customers with **local expertise** and **coordinated support** across key international markets. With **27 offices worldwide**, we respond quickly and deliver consistent service wherever our customers operate.

USA • MEXICO • BRAZIL • ARGENTINA • PERU • UK • ITALY • INDIA • CHINA

# CERTIFIED AND AUTHORISED

Our certifications and authorisations reflect recognized standards and official approvals that support **compliant, reliable, and responsible logistics operations** across our organization.

CTPAT™
YOUR SUPPLY CHAIN'S STRONGEST LINK.

# 50 YEARS AND COUNTING

Aprile brings together over **50 years of global logistics** experience and more than **30 years of Project Cargo** specialization to support demanding industrial projects around the world.

Our commitment is to deliver solutions that **keep projects moving** with clarity, control, and dependable execution. From early planning to final delivery, **we provide the continuity and assurance customers need to complete their projects successfully**.
